

INDIANA FIXES

PRICES FOR COAL

Tells Operators Where And How Much Fuel State Must Get!

Indianapolis, Oct. 30.—Indiana and the nation stand agape today while the state administration, elected from the most conservative group in the Republican party, is taking away from the coal operators and dealers the right to control "their own" property.

Coal operators admit privately they have been making excessive profits, but claim the prices fixed by the state coal commission are too low and that they can only operate at a loss under them.

With the fixing of prices Indiana operators immediately began sending coal out of the state in larger quantities until the pinch was felt throughout the state.

Prices To Be Fixed.

Then the commission startled the state, the operators and the nation by ordering the operators to produce enough coal for Indiana's domestic consumption, 1,500,000 tons a month, at a price fixed by the commission.

The order requires a report each week on the number of tons mined, the amount offered for sale and the buyers. Violations of the order are punishable by a maximum fine of \$5,000, to which may be added a sentence of one year on the Indiana state farm.

This revolutionary order is the first of its kind, attorneys state. Monopoly public utilities have been ordered to serve people, but never before has a business in which competition is supposed to exist been ordered to serve the people with its property.

James P. Goodrich Indiana's conservative governor, who fostered the law establishing the commission, has warned the coal operators not to fight regulation.

Chairman Eschbach of the commission, recently announced that if Indiana retail coal dealers refused to observe the commission's ruling on the 25 per cent margin granted them on the same price of coal, he would establish municipal coal yards throughout the state.

Goodrich, tactful in selecting the commission, evaded the old cry of "just another useless commission." By appointing the state board of accountants as the coal commission, the members performing their new duties without additional pay. Governor Goodrich, James Eschbach, chief of the board of accountants, and Otto Klaus, auditor of the state, make up the commission.

AUTO PLUNGED OFF

200-FOOT CLIFF

One man was killed, another was mortally injured and three other persons were badly hurt when the auto in which they were riding dropped over a 200-foot precipice in Bear Creek canyon, near Denver, Colo. It is said that the wife of the driver, sitting beside him, became excited, seized the steering wheel and turned the car off the narrow road to the edge of the cliff.

GETTING READY FOR THE INTERNATIONAL

Preparations for the World's Greatest Live Stock Exposition at Chicago during the first week of December, are now well under way. Each season this spectacle of animal life is given a new stage setting, involving the labor of hundreds of men for several weeks and an expenditure of many thousand dollars. Part of this is necessitated by essential convenience for man and beast; part goes to furnish the coloring that has given the Exposition atmospheric brilliancy, intensified as each season rolls around. An enormous sum is required for light effects, a feature called the "International" that has always been absent and much of the time in advance of such improvement as electrical ingenuity develops. This year a number of scenic novelties have been introduced, arrangement of exhibits has been perfected and a more elaborate setting has been given the

latest addition to this aggregation of spectacles—the Grain and Hay Show, under the auspices of the Chicago Board of Trade.

When the gates are thrown open to the public, November 27th a month hence, all this elaborate and expensive getting-ready programme will insure the most successful International Live Stock Exposition since the inauguration of that enterprise, which has been effective in promoting the welfare and progress of the live stock industry of all sections of North America.

WINTER EGGS.

"The first winter I used Dr. LeGear's Poultry Prescription, it made me a lot of money: I have 51 hens and sold in January \$44.00 worth of eggs, beside what we used ourselves."

—C. D. McCormick, Irmo, Idaho. Poultry Raisers who get an abundance of eggs, use Dr. LeGear's Poultry Prescription, which tones up the system and stimulates the egg-producing organs without injury. If you want eggs this winter when eggs mean money, get Dr. LeGear's Poultry Prescription from your dealer right today. Dr. LeGear is America's foremost Expert Poultry Breeder and Veterinarian. For any ailment whatsoever among your poultry or stock get his remedies from your dealer. They must satisfy you, or your dealer will refund your money.—Adv.

CAMOUFLAGED PARIS

Plans Completed To Foal German Gothas When War Closed

Paris, Oct. 30.—A sensation has been caused by the revelation of the secret plans of a "fake Paris" built about fifteen miles outside the city limits to attract German Gothas during their night raids, thus preserving the real Paris from their bombs.

By means of thousands of wooden huts, miles of canvas and a series of remarkable light effects, fictitious railroad stations, trains and factory sites were created which imitated perfection the real ones.

The Eastern Railway station, for instance, was constructed at about ten miles north of the city, with its buildings, moving trains, signals, and a factory near by apparently going at full blast.

To stimulate a station, wooden framework was covered by transparent canvas. Lit from below the effect was that of huge vaulted domes like the real railroad stations. When the Gothas were signalled the lights were lowered sufficiently to make it seem that an attempt was made to hide the station in darkness.

For more than two miles beyond the Bois de Vincennes were fictitious trains composed of a series of wooden panels, the sides of the wood painted to look like the real train cars. To look like the goods train, a number of light which from above, looked like the reflection from factory windows. A special electrical arrangement made it appear, at times, as if the trains were moving.

Minute plans had been made to transport a false "heart of Paris" into the Saint Germain forest, some fifteen miles away while about twelve miles to the West, a huge factory town was to have been simulated. The carrying out of these plans, and Mr. Jacopini, the inventor of the ingenious "down camouflaging system" is now looking for another war with other air raids to be able to perfect his ideas.

Irregular bowel movements lead to chronic constipation and a constipated habit fills the system with impurities. HERBINE is a great bowel regulator. It purifies the system, vitalizes the blood and puts the digestive organs in fine, vigorous condition. Price 60c. Sold by Ohio County Drug Co.

BOXING GLOVES FOR CHICAGO SCHOOLS

Chicago, Oct. 30.—Plans to put a set of boxing gloves in every Chicago school for the use of pupils in settling their disputes are being made by Geo. B. Arnold, chairman of the finance committee of the Board of Education.

Mr. Arnold announced his plan today in answer to critics of Miss Alice M. Hogge, principal of the Webster School, who referred a bout between two of her pupils. He said that as far as he was concerned, the efforts of attorneys for Mrs. Rose Selon to have Miss Hogge discharged because she permitted the battle would prove of no avail. Mrs. Selon's son, Abe, was defeated in the scrap by Salvatore Sorino.

"Boxing in the schools ought to be encouraged," said Mr. Arnold. "If any principal sends in a requisition for boxing gloves I will see that it is honored at once. If necessary, I will seek an appropriation for money to buy boxing gloves at the next meeting of the board."

GOES 70 MILES FOR MORE TANLAC

Gained 17 Pounds And Her Wonderful Improvement Is Talk Of Neighborhood.

"It's no wonder that everybody sees a change in mother since she began taking Tanlac, for she has gained seventeen pounds and can get about better than for the last twenty-five years," recently declared T. E. Ellis, well-known live-stock dealer, living at Ramsey, Ky.

"My mother is now sixty-eight years old and for eight years had suffered from loss of appetite, nervousness, constant headaches, severe pains in the chest and back and frequent spells of dizziness. She became so bad off about five years ago that she had to give up all housework, and spent most of her time in bed. During all that time she neither knew what it was to have a well day or a night's rest, and her condition became so alarming that we never expected to see her up and about again.

"One day she read in the papers about someone who had been greatly helped by Tanlac, and nothing would satisfy her until she had tried it herself. So I drove 35 miles to Evansville and got her a bottle. She had four more bottles since then and she has actually gained seventeen pounds in weight, and it's years since I saw her looking so well. She

praises Tanlac all day long, and her remarkable recovery has made such a stir around Ramsey that scores of other sick people have been taking Tanlac with splendid results. I make a trip to Evansville every week and always carry back a load of Tanlac for the neighbors. We all think there is no medicine like it, and I'm glad of this chance of telling everybody about what it did for my mother."

Tanlac is sold in Hartford by Dr. L. B. Bean; in Beaver Dam by R. T. Taylor, Jr.; and in McHenry by S. J. Tichenor.—Advertisement.

COURT TO DECIDE ON COMMON LAW MARRIAGE

Indianapolis, Ind., Oct. 30.—Alma Rosebrooke Telke, whose common-law husband, Carl Fred Telke, was killed in action October 15, 1918, has asked Federal Judge A. B. Anderson, to recognize her as Telke's widow and grant her the widow's share of his life insurance. It amounts to \$7,500. "Carl was called away to camp," she said, "and he asked for a furlough to come home and marry. Finally he got a one-day leave—Sunday, May 9, 1918. There were no marriage licenses to be had on Sunday so we pledged ourselves before God to be true to each other as man and wife. Then we sealed it with a kiss and Carl went to war. In the eyes of God we are married and I am his widow." Mrs. Telke says she feels sure Judge Anderson will decide the case in her favor and recognize a new form of marriage.

NEW YORK MURDERER SENTENCED IN ITALY

Milan, Italy, Nov. 1.—Alfred Cocchi, charged with the murder of Ruth Cruger, whose body was found buried in the cellar under his New York shop several months after he fled to Italy, was Friday convicted of murder. He was sentenced to twenty-seven years, four months and three days, by the court in Bologna this afternoon.

Cocchi was arrested in Italy after the body of Ruth Cruger had been found buried in the cellar of his bicycle shop in Harlem. She carried a pair of skates to Cocchi's shop to have them sharpened and was never seen alive afterward.

The body was discovered after a search of six months. During the long search, and after strongly dis-

claiming any knowledge regarding the missing girl, Cocchi went to Italy where the government upheld his claim that he could not be extradited.

All the evidence gathered in this country before and after finding Cocchi was sent to the authorities in Italy and the Italian government announced that he would be tried there.

Besides his conviction on the murder charge, cable dispatches said today that Cocchi was also found guilty of attempted criminal assault, falsifying passports and false enrollment for military service.

Stop coughing! You rack your lungs and worry the body. Ballard's Horehound Syrup checks irritation, heals the lungs and restores comfortable breathing. Price 25c, 50c and \$1.00 per bottle. Sold by Ohio County Drug Company.

Kill That Cold With
